

ELIZABETH GRAVES'
SOUTHERN CALIFORNIA
GAITED HORSE CLINIC

on
NOVEMBER 8 and 9, 2008 at 9:00 AM
at
FARMS OF TADAE,
Winchester, CA.
{RIVERSIDE COUNTY}

This is a rare opportunity for California gaited horse owners and riders to learn from
one of the top gaited horse clinicians in the United States!

Elizabeth's clinics are well known and popular throughout the United States and Canada for being informative and motivational. Liz uses positive re-enforcement for the horse and rider, working with each team at their current level. Liz addresses each horse's unique conformation and natural way of going rather than applying the same training principles to all horses of a particular breed. Liz stresses the importance of proper saddle fit and use of the correct bit for each individual horse. Liz has published countless articles which can be viewed on her website.

www.lizgraves.com
